

stringModule::addSolenoid

solenoid::solenoidDisengage

solenoid::updateSolenoid

solenoid::solenoidDisengage

```
graph LR; A[stringModule::addSolenoid] --> D[solenoid::solenoidDisengage]; B[solenoid::solenoidDisengage] --> D; C[solenoid::updateSolenoid] --> D;
```

The diagram illustrates a dependency or mapping where three functions on the left point to a single function on the right. The functions on the left are 'stringModule::addSolenoid', 'solenoid::solenoidDisengage', and 'solenoid::updateSolenoid'. The function on the right is 'solenoid::solenoidDisengage'. Blue arrows indicate the direction of the relationship from each source function to the target function.
