

mute.h

mute.cpp

main.cpp

```
graph BT; main.cpp --> mute.cpp; mute.cpp --> mute.h
```

The diagram illustrates a vertical dependency structure. At the bottom is a white box labeled 'main.cpp'. A blue arrow points upwards from 'main.cpp' to a white box labeled 'mute.cpp' in the middle. Another blue arrow points upwards from 'mute.cpp' to a gray box labeled 'mute.h' at the top. This indicates that 'main.cpp' depends on 'mute.cpp', and 'mute.cpp' depends on 'mute.h'.
